

MISSION MATTERS: *August 2022*

Do You Have a Heart For...

The C.U.P.S. campaign continues! I know that we told you that July was **C.U.P.S.** month. However, due to circumstances beyond our control, we have not been able to deliver your donations as of this writing. That means that there is still time to pick up school supplies, bring in that walker or another piece of medical equipment that you no longer need. Pull out that old computer that you stashed in the closet when you got the new one. You aren't going to use it but the border school sure will.

To all of you who have donated, a huge shout-out of appreciation. It is you and others like you who have kept this organization going and growing.

We have been supporting this ministry for years. **C.U.P.S.** builds and rehabs schools, primarily on the U.S./Mexican border. They help provide basic necessities to families living in unincorporated border communities including medical equipment for the disabled.

The Mission and Outreach team purchased backpacks for the school kids and we are asking you to help us fill them. A list of needed items is posted below.

In gratitude and grace,

Your Island Presbyterian Mission & Outreach Team
